Personal Statement

Creating positive change in the world through computer science

Education

 **Georgia Institute of Technology** 2020-2024
Candidate for B.S. in Computer Science
Concentrating in [Information Internetworks & Intelligence](#)
Cumulative GPA: 3.86

 **Randolph High School, NJ** 2016-2020
High School Diploma
Cumulative GPA: 4.72 (weighted), 4.08 (unweighted)

Work Experience

 **NCR Corporation**  Virtual (Atlanta, GA)
Software Engineer Intern, Innovation Lab Incoming Summer 2021

 **Lucille Games**  Virtual
Software Developer Apr 2020 – Aug 2020

- Collaborated with multiple developers and a quality assurance team to develop and improve existing games on Lucille Games' network
- Created a streamlined process to evaluate the functionality of new game features
- Brainstormed and implemented new systems to create new immersive gameplay experiences
- Tested and patched existing bugs due to outdated code

 **XLink, (Employer: Munroe Chirnomas)**  Virtual
Software Intern Sep 2017 - Mar 2020

- Developed image recognition software utilizing SIFT, SURF, and ORB algorithms and homography
- Created a web scraping tool that tested for reactions from different mainstream websites and which also gathered statistics regarding those automated interactions
- Collaborated with team of software and mechanical engineers working on robotics for specific industrial solutions

 **Harvard University Medical School/Brigham and Women's Hospital**  Boston, MA
Harvard Laboratory Research Intern Aug 2019

- Applied computer science skills with bioinformatics; exposed to biomedical wet lab and state-of-the-art molecular biology techniques, including single cell sorting and RNAseq
- Attended research team meetings with postdocs and principal investigator and meetings with invited speakers at hospital

Projects

PKNK  [GitHub](#)

- Created an Android application using Java for the 2020 QuackHacks hackathon, which provided a platform for individuals to exchange cooking recipes in a social media style; The program used Google Firebase to provide a real-time database for live updates to user feeds

Skills

Languages/Tools: Java, Git, Android Development, Game Programming, Python, Lua, HTML, CSS

Relevant Coursework: [Object-Oriented Programming](#), [Data Structures & Algorithms](#), [Linear Algebra](#), [Discrete Mathematics](#)

Extracurricular Activities

HackGT: Catalyst
Mentor Mar 2021

- Selected to mentor high school students in Cybersecurity track of hackathon

RHS Computer Club
Co-President/Executive Board Member Aug 2018 - Jun 2020

- Developed yearly planning of projects and strategies to support and improve club; led club/board meetings and student-run coding lessons, delegated tasks for improved efficiency; increased membership 25%
- Secured new funding from Head of Technology Department for new innovative programs

Food Relief Agency
Volunteer 2013-2020

- Packed donated food boxes (n=300) and delivered food to homes with very low food security in community

Honors & Awards

- National Honor Society, Mu Alpha Theta, National AP Scholar, RHS Computer Club Leadership Award
